Superintendent Executive Build Day

Superintendents across Kent ISD gathered April 20 to hammer, sand and saw in a Habitat for Humanity house in southeast Grand Rapids. Part of a Habitat "Superintendent Executive Build Day," 16 superintendents participated in a variety of roles, including:

- installing wood flooring in the master bedroom
- caulking exterior trim
- hanging blinds
- cutting trim for the kitchen
- prepping walls for a final paint coat
- clean-up

Habitat for Humanity helps remodel existing homes and builds new ones with the assistance of the prospective homeowner and volunteers throughout the community. In a letter thanking the superintendents, agency staff said "We here at Habitat really appreciate all you did to make this happen. Our Habitat homebuyer, Sheila W. and her brother are now one more step closer to becoming homeowners because of your tangible efforts."

Several Superintendents take a break and gather for a group photo.
